

TNG30 Universal Wear Tester (Stoll Quartermaster)

To determine the wear and abrasion resistance of fabric used in clothing, footwear and industrials. Supplied with surface abrasion head (inflated diaphragm method and flex abrasion head as well as necessary weights and initial supply of abrasives. Fitted with built-in timer and mechanical cycle counter.

Techniques:

Speed : 120rpm

Measuring Range: 25mm

Counter Display : LCD

Standards : ASTM D3514.D3885.D3886 AATCC 119.120 FTMS 191.5300.5302

FORD EFB 15J2/BN 112-01

Dimensions : 480 x 360 x 715mm

Weight: 43kg

Accessories:

Surface abrasion Head: 1pc

Rubber Membrane: 4pcs

Surface Abrasion testing Clamp: 1pc

Flex Abrasion Head: 1pc

Flex Blade Device: 1set

Frosting Test Cam: 1set

Depth Testing Camp: 1pc

Depth Micrometer: 1pc

Weight: 1 set

Emery paper: 50pcs
